PROGRAMME SCHEDULE

22nd - 28th February, 2022

Introduction

As we celebrate the 75th year of India's Independence, that is, 'Azadi Ka Amrit Mahotsav', efforts are being made to showcase India's prowess in the fields of science, technology & innovation. " Vigyan Sarvatra Pujiyate " (Science is revered always everywhere) is the nation-wide effort under which at 75 places across India a week-long celebration of Science, technology and innovation would be undertaken between 22nd and 28th of February, 2022. The celebrations will be in the form of expositions, deliberations, symposia, talks, panel discussions, film and drama shows, visits to scientific institutions, hands-on experiments etc. Also, apart from all these forms, competitions too are being organized at various levels.

Sathaye College has been nominated among the four institutions across the State of Maharashtra (out of 75 locations all over India) as a centre to celebrate the Festival- "Vigyan Sarvatra Pujiyate."
